

KLOVE is a great station to listen too, its a relief from the everyday junk that fills the airwaves from all the other radio and tv stations.

If any of the FM translators used by KLOVE in the area i live in are given over to the lpfm program i feel the loss would not only be upsetting to me , but to others who also share the same feelings and beliefs that KLOVE brings to my area.

KLOVE provides a service to those that share in christian beliefs and brings a feeling of care to all who listen to their programming.
